-

EDUCATION

Computer Systems Technology Diploma
Saskatchewan Polytechnic

June 2026 (In Progress)

Bachelor of Education (with honours)
University of Saskatchewan

2018

Bachelor of Science, Kinesiology
University of Saskatchewan

2015

TECHNICAL PROJECTS

School Capstone - Year 1: Web-based Card Game Platform

- Built a JavaScript-based web application featuring multiple math-focused card games
- Developed login/authentication flows and a virtual store for unlockable user customizations
- Performed peer code reviews and implemented end-to-end testing using Cypress

School Capstone - Year 2: AI Tutoring App

- Built an AI-powered tutoring application that generates study tools from educational content
- Designed RAG pipelines for the creation of quizzes, summaries, flashcards and study guides
- Integrated Microsoft OAuth for secure user authentication and authorization
- Implemented a FastAPI backend with file caching to optimize API response times
- Deployed a responsive React frontend designed for an intuitive user experience

RECENT WORK EXPERIENCE

Elementary Classroom Teacher

2018-2024

GSCS - Father Vachon School

Developed and delivered responsive instruction tailored to diverse learner needs. Built strong relationships with students, families, and staff. Used data-informed reflection to continuously improve instructional practice.

League Administrator

2023-Present

Saskatoon Ultimate Disc-Sport Society

Co-creator of local stats-based ultimate frisbee league. Responsible for collection and analysis of gameplay data, data visualization, and general league operations.

LEADERSHIP & COMMUNITY

Coach & Clinician

2015-Present

Saskatoon Ultimate Disc-Sport Society

Offered learn-to-play and competitive ultimate frisbee programming for adult and junior athletes.

Team Canada Athlete

2015-Present

Ultimate Canada

Represented Team Canada and multiple Canadian club teams at National and World Championship events in the sport of ultimate frisbee.
